

**MCS D EMPLOYEES:** The employee portal is not compatible with IE10 unless viewed in "Compatibility View". It does, however, work well with Google Chrome.

[If you know how to use Compatibility View or you are not using IE10, continue by clicking here.](#)

Directions for using Compatibility View are shown below.

Your toolbar should have a "Tools" dropdown menu (IMAGE A). If it does not, right-click on the empty space and place a check beside "Command Bar" (IMAGE B).

While viewing the Employee Portal page with the error message, use the Tools dropdown menu and place a check beside "Compatibility View" (IMAGE C). The page should refresh and you should be able to log in.
