

# Connecting to MCSD Wifi

1. Open the Internet connection options by clicking on the icon in the Windows Notification Area in the bottom right corner of your screen.

Since you most likely are not connected to any network, your icon may display as this:

2. Choose **MCSD\_Public**. If you put a checkmark in the box to connect automatically, when you bring your device to school again, it will automatically connect to this network and you will begin at step #6.

3. Press **Connect**.

4. You will be prompted to enter the network security key: **mcsdlmi123**

5. Press **OK**.

6. As soon as you open the Internet, you will be prompted to log in. Enter your school **USERNAME and PASSWORD** just as you would type if logging on to an MCSD computer.

7. Press **Submit**. You can then surf the Internet.

The image shows a login form for the MCSD Guest Wireless network. The form has a blue header with the word "Login" in white. Below the header, the text "MCSD Guest Wireless" is displayed in bold. Underneath, there is a instruction: "Enter your user name and password to access MCSD Guest Wireless Network." There are two input fields: one for "User Name" and one for "Password". Below these fields is a green "Submit" button.

**Login**

**MCSD Guest Wireless**

Enter your user name and password to access MCSD Guest Wireless Network.
