

INDIAN VALLEY EL SCH

125 Kish Rd

Schoolwide Title 1 School Plan | 2021 - 2022

VISION FOR LEARNING

We envision an innovative, stimulating, and exciting school community where all participants are actively engaged in learning in a safe and secure environment. We strive to offer an educational opportunity where each student acquires the skills necessary to maximize potential and enhance creative thinking. We believe we must use all local, state, and federal resources to support literacy instruction as it is a basic human right to learn how to read in a supportive literacy environment. We commit to continuous growth and utilization of best practices in assessment and instruction through a Multi-Tiered System of Support. We model the "Twelve Traits of Character," embrace diversity, and expect students to demonstrate respectful, responsible, ready, and safe behaviors. We believe children need a positive, nurturing environment; therefore, we will build relationships among students, families, staff, and the community that support each other. We believe that all children can learn, but students learn at different paces and in a variety of ways. We will strive to meet each student where they are in the learning process and adapt instruction to help them succeed.

STEERING COMMITTEE

Name	Position	Building/Group
Kelly Campagna	Principal	MCSD/Indian Valley Elementary School
Frank Miller	Coordinator of Federal Programs	MCSD
Karla Traxler	Kindergarten Title I teacher	MCSD/Indian Valley Elementary School
Lisa Hackenberg	1st Grade Title I teacher	MCSD/Indian Valley Elementary School
Jennifer Knode	2nd Grade Title I teacher	MCSD/Indian Valley Elementary School
Kari Steele	3rd Grade Title I teacher	MCSD/Indian Valley Elementary School
Erin Campbell	School Counselor	MCSD/Indian Valley Elementary School
Rebecca Erney	School Psychologist	MCSD/Indian Valley Elementary School
Jennifer Johnson	Regular Education Teacher	MCSD/Indian Valley Elementary School
Dawn Berrier	Special Education Teacher	MCSD/Indian Valley Elementary School
Kevin O'Donnell	Coordinator of Curriculum, Professional Development and Assessment	MCSD

Julie Martin	Parent	Indian Valley Elementary Parent
James Estep	Chief School Administrator	MCSD

ESTABLISHED PRIORITIES

Priority Statement	Outcome Category
Indian Valley Elementary will continue with implementation of the Spring Math interactive platform to combine streamlined tools for assessment, reporting, and intervention to provide a clear path to math achievement for every student.	Mathematics
Indian Valley Elementary will continue with the implementation of the Fountas & Pinnell Benchmark Assessment System to determine student's independent and instructional reading levels. Teachers are able to observe student reading behaviors one-on-one, engage in comprehension conversations that go beyond retelling, and make informed decisions that connect assessment to instruction.	English Language Arts
Indian Valley Elementary will continue with Implementation of Heggerty, Early Reading Intervention (ERI), and explicit phonics instruction (paired with Enhanced Core Reading Instruction).	Early Literacy

APPROVALS & SIGNATURES

Assurance of Quality and Accountability

Assurance of Quality and Accountability

The Building Administrator, Superintendent/Chief Executive Officer and President of the School Board will affirm the following statements.

We affirm that our school has developed a School Improvement Plan based upon a thorough review of the essential practices to advance educational programs and processes and improve student achievement.

We affirm that the action plans that we will be implementing address our specific school needs, include strategies that provide educational opportunities and instructional strategies for all students and each of the student groups, increases the amount and quality of learning time, and provides equity in the curriculum which may include programs, activities, and courses necessary to provide a well-rounded education. These plans address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards.

We, the undersigned, hereby certify that the school level plan has been duly reviewed by the Building Administrator, Superintendent of Schools and formally approved by the district's Board of Education, per guidelines required by the Pennsylvania Department of Education.

We hereby affirm and assure that the school level plan:

- Addresses all the **required components** prescribed by the Pennsylvania Department of Education
- Meets **ESSA requirements**
- Reflects **evidence-based strategies that meet the three highest levels of evidence outlined in ESSA**
- Has a **high probability of improving student achievement**
- Has sufficient **LEA leadership and support to ensure successful implementation**

With this Assurance of Quality & Accountability, we, therefore, request the Pennsylvania Department of Education grant formal approval to implement this school level plan.

ADDENDUM A: BACKGROUND INFORMATION TO INFORM PLAN

Strengths

48.3% of All Student Group were Advanced/Proficient on 2019 Mathematics PSSA.

18.0% of All Student Group were Advanced on 2019 Mathematics PSSA.

Our strengths as a school in terms of implement our career readiness program is that our educators and staff are meeting the career readiness standards with the education they are providing our students. Our educators have been very flexible when it comes to the online program challenges faced and understand the need for students to be able to have an online portfolio for their career readiness. We continue to refine and grow each year in how to assure the online program fits our schedules and students needs.

The interface and platform have changed, making for better use for our staff and students.

50.0% of the White Ethnicity Group is meeting the interim target on the 2019 Mathematics PSSAs. This is a decrease from the previous year, but still better than not meeting the statewide goal and interim target.

Challenges

51.7% of All Student Group were Basic/Below Basic on 2019 Mathematics PSSAs.

48.3% of All Student Group were Basic/Below Basic on 2019 ELA PSSAs.

Due to COVID 19 we do not have 2020 PSSA data to analyze as a building.

The technical pieces could be resolved by working closely with the tech department to make the login process more user friendly.

Additionally, working with the online program company in the future with updates and changes to their platform will help us as a district utilize this resource better in terms of being able to collect classroom data and uploading items to the students online portfolio.

36.1% of the Economically Disadvantaged Group is not meeting the statewide goal or interim target on the 2019 ELA PSSAs.

50.0% of the White Ethnicity Group is not meeting the statewide goal or interim target on the 2019 ELA PSSAs. This is a decrease from the previous year.

Strengths

There is an insufficient sample of the Hispanic Ethnicity Group. This indicates that this race/ethnicity subgroup does not display any inequity in performance.

Use a variety of assessments (including diagnostic, formative, and summative) to monitor student learning and adjust programs and instructional practices.

Implement a multi-tiered system of supports for academics and behavior.

Monitor and evaluate the impact of professional learning on staff practices and student learning

Promote and sustain a positive school environment where all members feel welcomed, supported, and safe in school: socially, emotionally, intellectually and physically

Organize programmatic, human, and fiscal capital resources aligned with the school improvement plan and needs of the school community

Monthly MTSS team meetings to analyze data and develop intervention groups based on an MTSS framework.

Use of Benchmark Assessment System in combination with Acadience/DIBELS, Quick Phonics Screener, Sight Word Inventories, and other various local assessments to drive

Challenges

2020 PSSA data not available to analyze due to COVID 19 pandemic.

Economically disadvantaged students did not have adequate internet access and reliable technology to fully participate in remote learning throughout the throughout the COVID 19 pandemic during the 2019-2020 and 2020-2021 school year.

Provide frequent, timely, and systematic feedback and support on instructional practices

Deficit in phonics skills have created an "inverted" triangle of students who are likely in need of strategic or intensive support in Grade 1.

COVID 19 pandemic has significantly impacted the amount of in-person learning all students have received over the course of the 2019-2020 and 2020-2021 school year. Afterschool and summer school tutoring will need to be offered to make up for the loss of in-person instruction.

A lack of technology devices and internet accessibility impacted remote learning for many of our students throughout the COVID 19 pandemic during the 2019-2020 and 2020-2021 school year. The district will make a significant investment in a technology 1:1 initiative to support remote learning and differentiated instruction.

Strengths

instructional decision making.

Data team meetings three times a year to analyze students' literacy, math, behavioral, and social-emotional needs based on data and collaborative input from classroom teachers, learning support teachers, school counselor, school psychologist, and principal.

Heggerty, ERI, Phonics for Reading, LLI, 95% Group, West Virginia Phonics, Six Minute Solution, Step by Step Learning, Foundations have been added as supplemental resources. IVEC teachers continues to use these resources with fidelity.

PaTTAN consultant providing ongoing support to analyze Spring Math data and develop internal Spring Math coaching support.

Spring Math's decision trees take the guesswork out of intervention selection, matching our students with the right interventions that are delivered class-wide, to small groups, and individually.

Monthly MTSS team meetings to analyze data and develop intervention groups based on the MTSS framework.

Implementation of guided math instruction to target skill deficits.

N/A

Challenges

Students get stuck on one skill for an extended period of time.

Teachers are still working on implementing all components of the lesson with fidelity.

COVID 19 pandemic has significantly impacted the amount of in-person learning all students have received over the course of the 2019-2020 and 2020-2021 school year. Afterschool and summer school tutoring will need to be offered to make up for the loss of in-person instruction.

A lack of technology devices and internet accessibility impacted remote learning for many of our students throughout the COVID 19 pandemic during the 2019-2020 and 2020-2021 school year. The district will make a significant investment in a technology 1:1 initiative to support remote learning and differentiated instruction.

N/A

Most Notable Observations/Patterns

Overall proficiency on the English Language Arts and Mathematics PSSA is a concern. Nearly 1/2 of the population in ELA and 1/2 of the population in Mathematics is not performing proficient or advanced on these assessments. Knowing that reading proficiency at the 3rd grade level is an indicator of success later in life, we need to strive for ongoing improvement. Our Acadience data indicates a deficit in phonics skills have created an "inverted triangle" of students who are likely in need of strategic or intensive support in Grade 1. BAS data indicates students have made growth from BOY to MOY but many students are still well below the recommended level for their respective grade. COVID 19 pandemic has significantly impacted the amount of in-person learning all students have received over the course of the 2019-2020 and 2020-2021 school year. Afterschool and summer school tutoring will need to be offered to make up for the loss of in-person instruction. A lack of technology devices and internet accessibility impacted remote learning for many of our students throughout the COVID 19 pandemic during the 2019-2020 and 2020-2021 school year. The district will make a significant investment in a technology 1:1 initiative to support remote learning and differentiated instruction.

Challenges

Discussion Point

Priority for Planning

51.7% of All Student Group were Basic/Below Basic on 2019 Mathematics PSSAs.

Implementation of Spring Math interactive platform to combine streamlined tools for assessment, reporting, and intervention to provide a clear path to math achievement for every student.

48.3% of All Student Group were Basic/Below Basic on 2019 ELA PSSAs.

With the implementation of the Fountas & Pinnell Benchmark Assessment System to determine student's independent and instructional reading levels, teachers are
