

Mifflin County Middle School

Clubs & Activities 2025-2026

Art Club

Students spend time being creative, learning new things, and using a variety of mediums including paint, acrylic paint pens, air-dry clay and even large rocks. The club does illustrations for the music programs in the winter and spring and display artwork throughout the school year in the lobby and for our annual Day of the Arts exhibition.

Board and Brain Club

Students will have the opportunity to engage in a variety of puzzles, strategy games, Rubik's cubes, and classic board games that promote critical thinking, collaboration, community, and fun. The club is open to students of all skill levels and provides a welcoming environment for all participants.

Book Club

Love to read and talk about books with friends? The MCMS Book Club meets after school to read, snack, and chat about exciting titles chosen by students. All are welcome: Come for the stories, stay for the fun!

Builder's Club

We're excited to launch a brand-new Builders Club at MCMS! As a student-led service organization, Builders Club empowers middle schoolers to make a difference in their school and community. Working in partnership with the high school Key Club and our local Kiwanis Club, members will plan and participate in service projects throughout the year, building leadership, character, and a lifelong commitment to helping others.

Chess Club

Whether you're a chess pro or just want to learn how to play, chess club is for you. The club meets after school on Fridays and has members of all different skill levels. Boards and competition are provided. All that's missing is you.

Computer Club

The club is open to students interested in learning about the various forms of technology we have available at MCMS, including computer apps/hardware, coding, robotics, laser engraving, makerspace resources, and more.

Drama Club

The MCMS Drama Club puts together a small production every year. Students may help with backstage crew or take a role on stage. Meetings start in January and will pick up after the high school's production.

Girls on the Run

This club is a positive youth development program for girls that focuses on building confidence, social, emotional, and physical skills through running and fun, interactive lessons. It aims to empower girls to be joyful, healthy, and confident by combining physical activity with research-based, interactive lessons. The spring season culminates in a 5K race where the girls, along with coaches and running buddies, celebrate their achievements and experience a sense of accomplishment.

Newspaper Club

Students explore journalism, writing, photography, and design. Students report on school events, write articles and feature stories, publish media reviews (books, music, podcasts, games, movies), and create original comics. Their work is showcased in our digital newspaper, *The Husky Howler*, which highlights life at Mifflin County Middle School and across the district.

PBIS Student Ambassadors

Ambassadors are nominated by their teachers in the beginning of the year for their hard work and kindness. Throughout the year, ambassadors run the school store or work on kindness projects throughout the year.

Project YES

Youth Excellence Services is a prevention program in Mifflin County offered by TIU Community Education Services. It targets at-risk middle school students who display success-hindering behaviors.

Rise Above the Noise

This student-led club exists to help students discuss life situations from a biblical perspective, so they can “rise above the noise!”

Science Club

The MCMS Science has hands-on experiments, exciting discoveries, and fun STEM challenges every week. From building rockets to solving real-world problems, our Science Club makes learning fun and fuels a lifelong love of science. It is perfect for curious minds ready to explore.

Student Council

MCMS student council helps to plan school dances and activity nights, helps with community fundraising events like the Salvation Army kettle challenge and mini-thon and supports our school by serving as guides for 5th grade tours and Back to School night.

Yearbook

Our yearbook is created by students. Students select the cover design, page layout, take pictures, and help distribute the books after they arrive. Most of the work is done during school hours. We need photos of clubs and sports, so it is a way for students who are busy with other activities to get involved.

Yoga Club

Yoga Club is a peaceful space to stretch, breathe, and relax after school. No experience needed - just bring yourself and an open mind!
